

Kelly B. Thomas, MD

Dermatology

Dr. Thomas earned her medical degree from the University of Arizona, and went on to residency at the Mayo Clinic in Rochester, MN. She loves the practice of dermatology, as it's a unique mix between medical, surgical and cosmetic concerns. "Dermatology is also a great field because you can see most of the problems with your eyes," she explains. Dr. Thomas advises her patients to be proactive in their health and conduct self exams of the skin each month. If patients find something has grown or changed, she encourages them to come in for a visit.

MEDICAL EDUCATION

M.D.: University of Arizona

RESIDENCY

Mayo Clinic, Rochester, MN
